

Vipul Vijay Pawar

Email: vipulpawar2020@gmail.com | Phone: +91 9595979680

Objective

“Software Engineer with over 4.8 years of experience designing, developing, and maintaining scalable web applications using ASP.NET technologies. Skilled in problem-solving, workflow optimization, and delivering high-impact solutions that improve system efficiency and productivity. Passionate about leveraging technology to solve real-world challenges and build reliable, maintainable applications.”

Skills

Languages: C#, SQL, JavaScript, HTML.

Frameworks: ASP.NET MVC, ASP.NET Web API, Angular, Umbraco CMS.

Databases & Data Tools: Oracle, PL/SQL, SSMS

Development Tools: Visual Studio, Git, JIRA

Work Experience

Custom Software Engineering Analyst | Accenture

July 2024 – Feb 2026 | Remote

“Transitioned to Accenture via acquisition of Allianz Technology, maintaining project continuity and client satisfaction during organizational change.”

- Spearheaded the development of container-based ASP.NET and Angular applications, resulting in a 15% improvement in system productivity.
- Performed production support, root cause analysis, and bug fixes to maintain application stability and performance.

Key Projects:

- **Client Document Service** – Built an API using ASP.NET Core (C#) to fetch data from SharePoint, integrating with Power Automate for efficient document retrieval and streamlined workflows.
- **Allianz Travel Insurance Portal (Australia/New Zealand)** – Continued development and support of the B2B/B2C insurance portal built on ASP.NET Core, leveraging Umbraco CMS for content management. Ensured uninterrupted service delivery during acquisition.
- **OCP (Online Claims Portal)** – Developed a standalone web application where end users could submit travel claims during or after travel. Built with ASP.NET Core, Angular for the front-end, and PL/SQL for backend data operations to enhance functionality and improve user experience.
- **MIDAS** – Separate project supporting Allianz operations. Database operations were performed directly using PL/SQL to update travel plans or synchronize OCP data. Integrated with the PRISM API, created using ASP.NET Core, to enable seamless communication between systems.

Senior Software Engineer | Allianz Technology

June 2021 – June 2024 | Remote

- Led the development and maintenance of web-based applications, improving system efficiency by optimizing application architecture.
- Provided end-to-end support for production applications, resolving 95% of issues within SLA timelines.
- Streamlined operations by implementing MVVM architecture, improving codebase maintainability.
- **Managed application support and release deployments** for six months, using Octopus Deploy to promote builds from test/UAT to production environments. Collaborated with QA teams for

validation, resolved end-user issues, and addressed queries while balancing other development tasks.

Key Projects:

- **Hyundai Roadside Assistance Portal** – Enhanced the customer portal for Hyundai car buyers and insurance holders by upgrading functionality and modernizing the user interface with ASP.NET, MVC and Bootstrap. Delivered a more user-friendly experience and improved service accessibility compared to the previous portal.
- **Provider Billing System** – Improved billing management for roadside assistance services by developing modules in PL/SQL and C#. Optimized billing workflows for garage-based facilities, ensuring accurate and timely processing aligned with RSA application requirements.
- **Allianz Travel Insurance Portal (Australia/New Zealand)** – Developed and maintained a B2B/B2C insurance portal enabling customers in Australia and New Zealand to purchase travel policies online. Leveraged ASP.NET, PL/SQL, Angular, and Umbraco CMS to deliver a scalable, content-driven application. Additionally, provided **end-user application** support for six months, ensuring smooth policy purchase and claim processes, resolving incidents within SLA timelines, and reducing repeat tickets by 20%.

Education

Bachelor of Engineering in Computer Science & Engineering
TKIET, Warananagar | 2017 – 2020

Diploma in Computer Technology
AITP, Vita | 2016 – 2017

Personal Details

Date of Birth: 14-Jan-1998.

Gender: Male.

Languages Known: English, Hindi and Marathi.

Marital Status: Married.

Address: Shri ram Nagar, mayani road, Vita, Maharashtra PIN 415311.
